Passione, competenza ed etica guidano DGA in ogni sua attività.
Da sempre la ricerca della bellezza rappresenta il fil rouge e la forza del brand, un’energia che guida l’azienda in un percorso di crescita e di miglioramento continuo.
Dietro ogni creazione ci sono un imprenditore ed un Team che si pongono come garanti di valore e qualità. Persone dotate di quel sapere che permette di raccontare il prodotto e trasmetterne le peculiarità. Queste immagini narrano una storia, parlano del prezioso “capitale umano” di DGA, persone essenziali per lo sviluppo e la crescita dell’azienda di cui, con orgoglio, condividono i valori.

Passion, competence and ethics guide DGA in all its activities.
The search for beauty has always been the common thread and strength of the brand, an energy that drives the company in a path of growth and continuous improvement.
Behind all creations, there are an entrepreneur and a Team standing as guarantors of value and quality. People sharing that knowledge able to tell about the product and transmit its peculiarities. These images recount a story, they talk about the precious “human capital” of DGA: people essential for the development and growth of the company whose values they proudly share.

CHI SIAMO

DGA è un'azienda che progetta, produce e commercializza sistemi di illuminazione di alta gamma. Da più di 30 anni narra una filosofia di qualità ed innovazione.

Grazie ad un imprenditore innamorato del proprio lavoro e ad un gruppo di collaboratori altamente qualificati ed appassionati, l'azienda ha avuto la forza ed il coraggio di innovarsi continuamente, di guardare al futuro senza snaturarsi. La sperimentazione ha permesso all'azienda di sviluppare autorevolezza tecnica e tecnologica, di adottare materiali inediti, soluzioni sempre più avanzate come, ad esempio, materiali sostenibili.

DGA offre un portafoglio di prodotti completo ed una vasta gamma di servizi e sistemi per la gestione professionale della luce. Le Collezioni, forti di un Made in Italy autentico, assicurano ai progettisti, lighting designer ed architetti, soluzioni illuminotecniche all'avanguardia nelle applicazioni per il retail, l'hospitality, l'industria, il residenziale, l'ufficio, il mondo dell'arte e della cultura.

Obiettivo dell'azienda è proporre sempre la tecnologia più affidabile, aggiornando continuamente i prodotti al passo con le evoluzioni tecnologiche.

WHO WE ARE

DGA is a company that designs, manufactures and markets high-end lighting systems. For more than 30 years he has been telling a philosophy of quality and innovation.

Thanks to an entrepreneur in love with his work and a group of highly qualified and passionate employees, the company has had the strength and courage to look to the future, to look to the future without distorting itself. The experimentation has allowed the company to develop technical and technological expertise, to adopt new materials, increasingly advanced solutions such as, for example, sustainable materials.

DGA offers a complete product portfolio and a wide range of services and systems for professional light management. The collections, strong of an authentic Made in Italy, assure designers, lighting designers and architects, cutting-edge lighting solutions in applications for retail, hospitality, industry, residential, office, the world of art and culture.

The company's goal is to always offer the most reliable technology, continuously updating products in step with technological developments.

QUALITÀ
Oggi chi produce prodotti di altissima qualità non può prescindere da valori che sono legati alla localizzazione della produzione. La scelta di una fornitura locale permette di partecipare attivamente al progresso economico del Paese e della regione, al mantenimento di un livello qualitativo alto della produzione e ad una riduzione delle emissioni generate dai trasporti. La gestione integrata di tutta la filiera (dalla ricerca e sviluppo, all'approvvigionamento e lavorazioni fino alla distribuzione, con un severo controllo degli standard qualitativi) offre vantaggi sia sotto il profilo ambientale che di sicurezza, ma anche di RSI, garantendo lo sviluppo lavorativo del territorio.

QUALITY
Today, those who manufacture products of the highest quality cannot ignore values that are linked to the location of production. The choice of a local supply makes it possible to participate actively in the economic progress of the country and the region, to maintain a high quality level of production and to reduce emissions generated by transport. The integrated management of the entire supply chain-from research and development, procurement and manufacturing and distribution with a strict control of quality standards) offers benefits in terms of environmental safety, but also of CSR, ensuring the work development of the area.

Marco, Reparto controllo qualità e collaudo / Quality control and testing department

FILIERA TOSCANA E ITALIANA

Tutti gli apparecchi DGA vengono sviluppati e realizzati negli stabilimenti fiorentini assicurando un elevato controllo della qualità e massima affidabilità a lungo termine. Dalla fabbricazione delle componenti meccaniche a mezzo di macchine utensili a controllo numerico, alla lavorazione dell'alluminio, piegatura, tornitura, fresatura fino alla verniciatura, tutto avviene internamente, così da garantire un controllo assoluto di qualità e flessibilità. La produzione delle schede LED, l'adozione del taglio laser, una verniciatura di alta qualità dichiarano l'intenzione dell'azienda di elevare costantemente il livello qualitativo dei propri prodotti e servizi. Un incessante percorso di crescita, quello di DGA in oltre 30 anni di storia, punteggiato da un'attitudine alla ricerca che ha generato apparecchi sempre più innovativi al servizio dei suoi interlocutori.

TUSCAN AND ITALIAN SUPPLY CHAIN

All DGA devices are developed and manufactured in Florence-based facilities ensuring high quality control and maximum long-term reliability. From the manufacture of mechanical components by means of CNC machine tools, to the processing of aluminum, bending, turning, milling to painting, everything takes place internally, so as to guarantee an absolute control of quality and flexibility. The production of LED boards, the adoption of laser cutting, high-quality painting disclose the company's intention to constantly raise the quality level of its products and services. A continuous growth path of DGA in more than 30 years of history, characterized by an attitude to research that has generated increasingly innovative devices at the service of its interlocutors.

Omar, Laboratorio fotometrico / Photometric laboratory

RICICLABILITÀ Una sfida “green”

Una tematica sempre più importante per DGA è la riciclabilità, intesa come valore e senso civico.

Uno degli obiettivi dell’azienda è adottare sempre più materiali che possano essere riutilizzati o liberati nella natura. Con le loro caratteristiche di durevolezza, alta efficienza, riciclabilità, gli apparecchi illuminanti DGA si dimostrano all’altezza di questo ambizioso intento.

Le nuove Collezioni rispondono sempre più alle normative internazionali sulle produzioni ecocompatibili in quanto realizzate con materiali altamente, spesso totalmente, riciclabili.

La produzione è sempre più orientata verso l’eco-sostenibilità, al fine di evitare sprechi di materiale e di energia.

www.dga.it/it/sostenibilita.php

RECYCLABILITY A “green” challenge

An increasingly important issue for DGA is recyclability, understood as value and civic sense.

One of the company’s goals is to adopt more and more materials that can be reused or released into nature. With their characteristics of durability, high efficiency and recyclability, DGA luminaires live up to this ambitious goal.

The new collections increasingly respond to international regulations on environmentally friendly production as they are made with highly, often totally, recyclable materials.

Production is increasingly oriented towards eco-sustainability, in order to avoid waste of material and energy. <https://www.dga.it/en/sustainability.php>

Irene, Gaia, Ufficio lighting design / Lighting design department

DESIGN DEL PRODOTTO

Oggi più che mai è fondamentale analizzare le trasformazioni del gusto e della sensibilità del progettista, sempre più attento a tematiche etiche. Il design di un prodotto, secondo DGA, deve coniugare estetica e funzionalità. Questa convinzione trova riscontro nei molteplici premi e riconoscimenti, nazionali ed internazionali, ottenuti in questi anni dall'azienda. Il team DGA collabora con talentuosi designer per dare vita a progetti integrati, frutto del dialogo fra diverse componenti, nella convinzione che un buon design debba attingere a conoscenze illuminotecniche condivise ed intercettare i nuovi flussi della cultura progettuale.

PRODUCT DESIGN

Today more than ever it is essential to analyze the transformations of taste and sensitivity of the designer, increasingly attentive to ethical issues. The design of a product, according to DGA, must combine aesthetics and functionality. This conviction is reflected in the multiple national and international awards and recognitions obtained in recent years by the company. The DGA team collaborates with talented designers to create integrated projects, the result of dialogue between different components, in the belief that good design must draw on shared lighting knowledge and intercept the new flows of design culture.

ARIEL / SATURNO

Stesso disegno luci diverse Same design different lights

Due sistemi d'illuminazione modulari con vocazioni distinte ma con lo stesso DNA. La combinazione ideale tra performance tecniche e capacità emozionali. Le molteplici finiture dei corpi illuminanti e degli anelli decorativi interni assicurano la massima personalizzazione. Al variare delle esigenze espositive è possibile modificare velocemente la scena luminosa grazie ad ottiche intercambiabili in opera.

Two modular lighting systems with distinct purposes but the same DNA. The ideal combination of technical performance and emotional skills. The multiple finishes of the lighting fixtures and the interior decorative rings ensure maximum customization. With the variation of the exhibition's needs, it is possible to quickly change the lighting scenario on site thanks to the interchangeable optics.

▶ QUANTUM SERIES

Una luce
perfettamente
integrata
al progetto
A light perfectly
integrated into
the project

La serie Quantum garantisce la solidità di un incasso ad alte prestazioni grazie alla presenza di un riflettore in vetro ad alta efficienza con trattamento antiriflesso. La temperatura colore Tk Brilliant, ad alta resa cromatica, rende questi apparecchi particolarmente indicati per il retail.

The Quantum series guarantees the solidity of a high-performance recessed fixture thanks to the presence of a high-efficiency glass reflector with anti-glare treatment. The Tk Brilliant color temperature, with high color rendering, makes these devices particularly suitable for retail.

▼ NANO TINI i

Nano is more

Ampliamento della famiglia Tini con l'incasso Nano Tini i, progettato per ripiani, mensole e nicchie con spessore minimo di 15 mm. Le ridottissime dimensioni, le eleganti finiture e le tre ottiche (20°, 30°, 50°) lo rendono ideale per l'allestimento e l'esposizione in teca per gioiellerie o musei. Nano Tini i sfrutta le potenzialità illuminotecniche delle innovative nano lenti progettate da DGA.

Extension of Tini range with the recessed Nano Tini i, designed for shelves and niches with a minimum thickness of 15 mm. The very small size, the elegant finishes and the three optics (20°, 30°, 50°) make it ideal for the setting up of display and showcases for jewellers or museums. Nano Tini i exploits the lighting potential of innovative nano lenses designed by DGA.

► NANO TINI

La potenza delle nano lenti
The power of the nano lenses

Piccolissimo (20x9 mm) e potentissimo spot per vetrine. È la massima concentrazione di tecnologia LED e miniaturizzazione dei componenti, tutto sviluppato da DGA. È il primo prodotto che adotta le nuove nano lenti, Ø 5 mm. Nano Tini è il prodotto ideale per situazioni dove è necessario nascondere la sorgente luminosa. Le nuove lenti sono dotate di snoot antiabbagliamento e sono disponibili con tre ottiche: 20°, 30°, 50°.

Very small (20x9 mm) and very powerful spot for showcases. It is the highest concentration of LED technology and miniaturization of the components, fully developed by DGA. It is the first product that uses the new nano lenses, Ø 5 mm. Nano Tini is the ideal product for projects where the light source is required to be hidden. The new lenses are equipped with glare-resistant snoot and are available with three beam angles: 20°, 30°, 50°.

TONO

I dettagli messi in luce
da un nuovo punto di vista

The details enlightened
by a new point of view

Un proiettore dalle dimensioni ridotte con corpo orientabile a 360°. Provvisto di ottica super stretta, ideata per esaltare con precisione i dettagli più piccoli in presenza di un'illuminazione generale. La grande compattezza, le ottiche ed il sistema antiabbagliamento rendono Tono perfetto per illuminare spazi espositivi.

Tono is a small-sized spotlight, with a 360° adjustable body. The fixture is equipped with a super narrow beam designed to highlight with precision the smallest detail, even in an area with a good level of general lighting. The compact size, the optics, and the low glare system make Tono a perfect product to light up exhibition areas.

▼ SINFONIA

**L'intelligenza
è magnetica**
The intelligence
is magnetic

Sinfonia è innovazione allo stato puro. È un piccolo portale luminoso smontabile composto da due montanti e da un'asta orizzontale, tutti da 8x8 mm. Il rivoluzionario attacco magnetico accende e spegne la luce, l'assenza di cavo permette una rotazione a 360° del traverso.

La facilità di assemblaggio agevola il trasporto e la manutenzione.

Disponibile in diverse ottiche e temperature colore facilmente combinabili tra loro per rinnovare velocemente l'allestimento.

Sinfonia is pure innovation. It is a small and removable light portal composed by two standing poles and a horizontal bar, all 8x8 mm sized. The revolutionary magnetic junction turns the light on and off and the absence of cable allows a 360° rotation of the bar.

The easy assembly facilitates the maintenance and transport as well.

Available with several optics and colour temperatures that can be easily combined for a quick and smart renew the layout.

Gli intuitivi attacchi magnetici semplificano l'allestimento di teche e vetrine. Sono disponibili in tre tipologie di astine e diverse altezze.

Intuitive magnetic attachments make it easy to set up showcases and display cases. They are available in three types of poles and different heights

▼ ARMONIA BRIDGE MIX

Dona equilibrio
con il sistema
modulare
Light balance with
a modular system

Per gestire la luce di un'esposizione in modo mirato occorre un sistema modulare in cui poter combinare la luce diffusa con quella d'accento. Armonia Bridge Mix nasce per rispondere a questa esigenza e lo fa unendo una barra LED per la luce diffusa con dei moduli lenti per la luce d'accento.

To control the light of an exhibition in a precise way, it is necessary to use a modular system that mixes diffuse and accent light. Armonia Bridge Mix is designed to meet this requirement, combining a LED bar for diffuse light to modules with lenses for accent lighting.

Moduli configurabili
Configurable modules

L'apparecchio segue il tuo progetto di illuminazione, combinando luce di fondo e luce d'accento per valorizzare gli articoli esposti.

Armonia follows your project combining background lighting with accent lighting in order to emphasize the exposed objects.

DIFFUSORE
Luce diffusa di fondo.

DIFFUSER
Background diffuse lighting.

DIFFUSORE + MODULO CON LENTI
Luce diffusa di fondo e luce di dettaglio sul prodotto.
Un effetto luce equilibrato dove nulla resta in ombra
E al contempo si mettono in risalto i soggetti più importanti.

DIFFUSER + MODULE WITH LENSES
Background diffuse light and focus on the product.
A balanced light effect, where nothing is in shadow and at the same time the most important objects are well highlighted.

SOLO MODULI CON LENTI
Luce di accento sul prodotto.
Per un effetto scenico molto deciso. Le luci d'accento illuminano solo i soggetti interessati, esaltando i dettagli.

MODULES WITH LENSES ONLY
Accent light on the product.
For an extremely defined stage effect. Accent lights only illuminate the stakeholders, enhancing the details.

▼ ACROBAT ACROBAT 360

Scenari di luce in movimento

Moving light scenarios

Incassi downlight da interno, caratterizzati da una forma circolare che ospita una sorgente luminosa arretrata ed orientabile.

Apparecchi ideali per illuminare teche di medie dimensioni o piccoli ambienti.

I meccanismi di orientamento ed il movimento basculante ad ampio raggio permettono di orientare gli apparecchi sia verso oggetti che verso superfici verticali.

La versione Acrobat 360 è caratterizzata dalla massima orientabilità dell'apparecchio.

Recessed indoor downlight, characterized by a circular shape that houses a backward and adjustable light source. Ideal luminaires for lighting medium-sized or small rooms.

The orientation mechanisms and the wide-range tilting movement allow the devices to be oriented both towards objects and towards vertical surfaces.

The Acrobat 360 version is characterized by the maximum adjustability of the device

Binari 24Vdc

24Vdc Tracks

Famiglia di binari e rispettivi accessori, con attacco a filo, dalle dimensioni compatte, indicati per chi è alla ricerca di apparecchi eleganti e sobri. I binari si caratterizzano per proporzioni contenute (21 x 27 mm) e si rivelano ideali per chi ha necessità di prodotti dallo spessore ridotto.

Range of tracks and related accessories, with flush to track adaptor connector and compact dimensions, suitable for all people looking for elegant and sober devices. The tracks are characterized by small proportions (21 x 27 mm) and are ideal for those who need products with reduced thickness.

COMETA Q4

Resterà solo la luce

Only the light will be

Con Cometa Q4 tutto scompare eccetto la luce, unico elemento visibile. L'esilità estrema della struttura, unica sul mercato, permette il collegamento in parallelo di più barre creando una linea sottilissima, infinita e continua, fatta di sola luce.

Everything disappears with Cometa Q4 except for the light, the only visible element. The extreme thinness of the profile, which is unique in the market, allows the connection in parallel of several bars together and creates a slightest line of light, infinite and homogeneous.

COMETA Q8

Una sottile linea di luce uniforme

A thin line of homogenous light

Cometa Q8 è la risposta definitiva per il lighting designer che cerca un profilo LED di altissima qualità. Con un profilo di solo 8 mm si integra alla perfezione in ogni contesto: illuminazione di vetrine, mensole e teche per esposizione. L'esclusiva tecnologia DGA che permette di ottenere una luce uniforme, potente e senza punti luce visibili.

Cometa Q8 is the definitive answer to the lighting designer who looks for a very high quality linear LED fitting. Thanks to its 8 mm thin body, it can perfectly be integrated with each context: cabinets lighting, showcases and exhibit shelves. DGA exclusive technology gives you the possibility to obtain a powerful and homogenous light with no visible LED points.

Q8 LENTI

Snello e potente
Lean and powerful

Q8 Lenti, dotato di innovative nano lenti, è la naturale evoluzione della serie Cometa. Grazie alle nuove nano ottiche, il flusso luminoso è maggiore rispetto alle lenti standard. Le dimensioni, 8x8 mm, rendono Q8 Lenti unico nel panorama dell'illuminazione retail. L'apparecchio impiega tre aperture di fascio: 20°, 30°, 50° e una nuova potenza (26W/m) per rispondere ai progettisti più esigenti.

Q8 Lenti, supplied with the innovative nano lenses, is the natural evolution of the Cometa series. Thanks to the new nano optics, the light flux emitted is higher than standard lenses. The dimensions of the profile, 8x8mm, make Q8 Lenti unique in the retail lighting panorama. The device is available with three beam angles: 20°, 30°, 50° and a new power (26W/m) to respond to the most demanding designers.

COMETA NGL

Integrare gli angoli con la luce

The light integrates with angles

Lo speciale profilo angolare di soli 10 mm definisce l'inclinazione a 45° della sorgente, permettendo l'inserimento sotto mensola o all'interno di arredi. L'apparecchio scompare lasciando visibile solo il segmento luminoso e illuminando in modo omogeneo l'oggetto esposto. Cometa NGL è una lampada lineare discreta, invisibile e decisamente versatile.

The special angle profile of 10 mm only defines the 45° inclination of the internal source and allows the product to be installed under shelves and within the furniture. The fixture disappears and the luminous line focuses the attention on the object exposed, which is homogeneously enlightened. Cometa NGL is a discrete linear product, invisible and highly versatile.

ARMONIA

Si ampliano
i confini delle
soluzioni lineari
The boundaries of
linear solutions are
broadened

Una soluzione ottimale per l'illuminazione delle mensole espositive è rappresentata da Armonia, disponibile con lente lineare ed un'ottica diffusa. L'innovativa lente 40° in policarbonato offre grandi vantaggi garantendo un flusso luminoso superiore alla media. L'ottica diffusa consente di illuminare in modo omogeneo lo spazio espositivo.

An optimal solution for the lighting of the exhibition shelves is Armonia, available with linear lens and diffused optics. The innovative 40° polycarbonate lens offers great advantages by guaranteeing an above-average luminous flux. The diffused optics allow to illuminate in a homogeneous way the exhibition space.

▼ ARMONIA MIX

Dona equilibrio con il sistema modulare

Light balance with
a modular system

Per gestire la luce di un'esposizione in modo mirato occorre un sistema modulare in cui poter combinare la luce diffusa con quella d'accento. Armonia Mix nasce per rispondere a questa esigenza e lo fa unendo una barra LED per la luce diffusa con dei moduli a lenti per la luce d'accento.

To control the light of an exhibition in a precise way, it is necessary to use a modular system that mixes diffuse and accent light.

Armonia Mix is designed to meet this requirement, combining an LED bar for diffuse light to modules with lenses for accent lighting.

MODULO CON LENTI - MODULO CON LENTI E SNOOT

Un effetto luce equilibrato dove nulla resta in ombra e al contempo si mettono in risalto i soggetti più importanti. Soluzione ideale per ottenere un'illuminazione d'accento in cui tagli di luce enfatizzano i particolari a cui si desidera dare rilievo.

MODULE WITH LENSES-MODULE WITH LENSES AND SNOOT

A balanced light effect where nothing remains in the shade and at the same time the most important subjects are highlighted. Ideal solution to achieve accent lighting where light cuts emphasize the details to which you want to give relief.

MODULO LUCE DIFFUSA

Armonia diffonde la luce in modo uniforme su tutta la superficie interessata. Soluzione ideale per ricreare un'illuminazione generale, creando atmosfere con luce morbida e soffusa.

DIFFUSE LIGHT MODULE

Armonia spreads the light evenly over the entire affected surface. Ideal solution to recreate a general lighting, creating atmospheres with soft light.

Potenze LED Power LED	Ottiche Optics	Finiture Finish	Colore LED LED Colour

3

MODULO CIECO

Copertura di chiusura a completamento del lato inferiore. Soluzione che permette la customizzazione della lunghezza dei moduli in configurazioni lineari.

BLIND MODULE

Closing cover with completion of the underside. Solution that allows to customize the length of the modules in linear configurations.

Finiture Finish
3 Grigio - Gray
4 Nero - Black

ARMONIA SWING

PIÙ VERSATILITÀ CON I MODULI ORIENTABILI

Il sistema lineare, grazie ai suoi moduli orientabili singolarmente, permette di illuminare più punti dell'area espositiva per enfatizzare le caratteristiche degli oggetti esposti.

MORE VERSATILE THANKS TO THE ADJUSTABLE MODULES

Thanks to this new linear system composed by modules that can be separately adjusted, it is possible to light up different parts of the exposition area in order to emphasize the features of the objects exposed.

ARMONIA CURVA

Luce flessibile e moltiplicata

Flexible and multiplied light

Ampliamento della serie, Armonia Curva è composta da sorgenti modulari disposte in linea. Grazie alla sua flessibilità è possibile disporla lungo le superfici curve, come mensole o pareti. Impiega diverse ottiche e diverse temperature colore. È l'ideale per illuminare spazi espositivi complessi, in cui componibilità e flessuosità sono i requisiti necessari.

Extension of the series, Armonia Curva is composed by modular light sources placed in a line. Thanks to its flexibility, it can be placed along curved surfaces, such as shelves or walls. Available with different optics and different colour temperatures. It is ideal for enlightening complex exhibition spaces where modularity and flexibility are necessary requirements.

Staffa orientabile (M o P) per la rotazione del singolo modulo sull'asse orizzontale e ne facilita il puntamento.

Adjustable bracket (M or P) for rotation of the single module on the horizontal axis and it makes it easier to point.

CONTINUUM

Facile installazione e continuità lineare dei moduli

Easy installation and linear continuity of the modules

Un apparecchio lineare orientabile pensato per creare effetti scenici lungo i profili delle pareti. Il sistema di fissaggio è stato appositamente progettato per poter accostare più apparecchi e creare un effetto di luce radente continuo. Disponibile in 7 lunghezze diverse, con un passo di 30 cm fino ad un massimo di 210 cm di lunghezza. Le 5 ottiche disponibili ne garantiscono l'altissima efficienza luminosa.

Continuum is an adjustable linear fixture designed to create scenic effects along the walls profiles. The fixing system has been specifically designed to put several fittings near each other in order to create a homogeneous and grazing light effect. The product is available with 7 different lengths, by steps of 30 cm and up to 210 cm total length. The highest luminous efficacy is guaranteed by the possibility to choose between 5 available optics.

▲ MICRO

Armonia tra design,
illuminazione e spazio esterno
Harmony between design,
lighting and outdoor space

Micro è un apparecchio piccolissimo e discreto, che si integra perfettamente all'universo outdoor, pur mantenendo un'identità ben precisa. Un mini-proiettore che riesce a mimetizzarsi totalmente nell'ambiente in cui è collocato e che garantisce alte prestazioni.

Micro is a very small and discreet device, which integrates perfectly with the outdoor universe, while maintaining a very precise identity. A mini-projector that manages to totally camouflage itself in the environment in which it is placed and that guarantees high performance.

La persona al centro del processo produttivo

The person at the centre
of the production process

Tutti i prodotti del catalogo sono progettati e costruiti nel rispetto delle direttive Europee sulla sicurezza. I dettagli sulla conformità del prodotto sono forniti nelle schede tecniche o nei manuali d'uso.

A causa della continua evoluzione della tecnologia del LED le caratteristiche tecniche dei prodotti costruiti in periodi diversi possono presentare leggere differenze nelle caratteristiche di luminosità o di finitura, nell'ottica del continuo miglioramento delle prestazioni e della qualità.

Tutte le affermazioni riportate nel presente catalogo sono indicative e non vincolanti per l'azienda. La stessa si riserva la facoltà di modificare i propri prodotti per migliorarne le caratteristiche tecniche o qualitative, anche senza preventiva informazione.

La DGA si riserva inoltre la facoltà di sopprimere o sostituire eventuali prodotti dalle collezioni presenti in questo catalogo.

La comunicazione delle eventuali modifiche sarà data al cliente al momento dell'offerta o dell'ordine.

Per qualunque chiarimento rivolgersi al nostro ufficio assistenza clienti.

DGA è un marchio registrato. La riproduzione di tale marchio su documentazione di vendita, cataloghi, siti o altri supporti deve essere preventivamente autorizzato per iscritto da DGA S.p.A. titolare del marchio. Il marchio non può essere modificato ne usato in modi diversi da quelli autorizzati dall'azienda.

Le immagini e i disegni presenti in questo catalogo possono essere utilizzate esclusivamente a supporto di comunicazioni riguardanti i nostri prodotti e la nostra azienda. Non è possibile utilizzare immagini estratte dai nostri cataloghi senza approvazione da parte di DGA S.p.A.

All the products shown in the catalogue are manufactured in compliance with the European safety directives. The details about the conformity of the products can be found in the datasheets or in the instruction manuals.

Because of the constant evolution of the LED technology, the technical features of products manufactured in different periods may show up some slight differences, in particular concerning finishing or luminous flux, in order to enhance unceasingly performances and quality.

All the statements listed in this catalogue are indicative and they cannot be considered as binding for the company. DGA reserves the right of modifying the products in order to improve their technical or quality features, even without prior notice.

DGA reserves the right of discontinuing or replacing products inside this catalogue.

Any eventual changes will be communicated to the customers at the moment of the quotation or of the purchase order. For any further information please contact our customer care service.

DGA is a registered trademark. The reproduction of the brand on documents, catalogues, websites or other means of communication may be used only under express written license from DGA S.p.A. The brand may not be modified or used except in accordance with these regulations.

Pictures and drawings in this catalogue may be used only as supports of advertising and promotional material concerning our products and our company. No picture or symbol extracted from our catalogue may be used without the consent of DGA S.p.A.
